Recommendation Reports

Purpose: To identify and compare the usage of UMM Profile concepts across CMR Metadata Collections.

Scope: This report considers over 15,000 metadata records from 18 NASA Providers and 8 Other providers.

Demo Focus: UMM-Collection metadata Profile

The screenshot shows a Confluence page titled "UMM-Collection Concepts in the CMR". The page is created by John Kozimor and last modified on May 04, 2017. At the top, there is a dropdown menu for "UMM-Collection" with "Required" selected and "Optional" highlighted. Below the menu is a table with the following data:
